Coding Challenge #4: Array Second Minimum

In this coding exercise, you will take an array as input and find the second minimum number from that array.

We'll cover the following

- Problem Statement
  - Input
  - Expected Output
- Coding Exercise

Problem Statement

Write a program that creates an array of following elements, then returns the second minimum element.

Input

```
values = [3, 11, 7, 2, 9, 10];
```

Expected Output

```
3
```

Coding Exercise

```
function secondMinimum(values){
  sndMin = values [0];
    // Write - Your - Code
  return sndMin;
}
```
