

Quiz

This lesson covers multiple choice questions related to loops in JavaScript.

1

Is the following statement correct?

Loops are used to repeat a series of statements and each repetition is called an iteration.

☐ A) True

☐ B) False

2

Is the following statement correct?

When we don't know in advance how many times loop is going to run, `for` loop is preferred.

☐ A) True

☐ B) False

3

Choose a correct option:

- ☐ A) The variable associated with the loop condition is called the loop counter
- ☐ B) Updating the counter of a `for` loop inside its body is a bad idea
- ☐ C) All loops can be written with `while`
- ☐ D) All of the above

4

Choose a correct `while` loop:

- ☐ A)

```
while(){  
  
}
```
- ☐ B)

```
while(condition){  
  
}
```
- ☐ C)

```
while{  
  
}(condition)
```
- ☐ D) All of the above

5

Choose a correct **for** loop:

☐

A)

```
for (initialization; condition; final expression){  
}
```

☐

B)

```
initialization;  
for (;condition; final expression){  
}
```

☐

C)

```
for (;;){  
}
```

☐

D) All of the above
