

Coding Challenge #3: Arrays Sum

In this coding exercise, you will input arrays and return sum of all the numbers present in every array.

We'll cover the following ^

- Problem Statement
- Input
- Expected Output
- Coding Exercise

Problem Statement

Complete the following program to compute and return the total sum of the values in each of the arrays.

Input

```
const arrays = [[1, 4], [11], [3, 5, 7]];
```

Expected Output

```
31
```

Coding Exercise

```
1 function findSum(array) {  
2   // Return the sum of sub-arrays within 'array'  
3 }
```
