Quiz

Let's test your knowledge on Firebase Authentication with a quick quiz!

1 What is Authentication?

○ A) The process of verifying someone's identity

○ B) Allowing individuals with the right permissions to do things in the app

○ C) Giving someone credentials based on previous experience with them

2 What Firebase method allows us to determine if a user is signed into our app?

○ A) firebase.auth.authState()

○ B) firebase.authentication.authState()

C) firebase.auth.onAuthStateChanged()

D) firebase.authentication.onAuthStateChanged()

CHECK ANSWERS

You did it! 🎉

You have completed this section. Give yourself a pat on the back!

In the next lesson, I will summarize what you learned about Firebase authentication before we move on to the next section, authorization.
