>   - Expected Output
> - Coding Exercise

Problem Statement

Write a program that creates an array of following elements, then returns the maximum element in the array.

Input

```
values = [3, 11, 7, 2, 9, 10];
```

Expected Output

```
11
```

Coding Exercise

```
1  function maxElement(values){
2      var max = values[0];
3      // Write - Your - Code
4      return max;
5  }
```
